

STAFF REPORT

To: County Council
From: Derrick Radke, Public Works Director
Mike Kendell, County Engineer
Date: February 28, 2018
Subject: Bitner Ranch Road to Silver Creek Connector

A connector route between Bitner Ranch Road and Silver Creek Road is on the County's Transportation Master plan. Staff has been reviewing options for an alignment for a connector route for a few years. There have been a few public meetings/open houses to discuss the options and to receive public input. In addition, Silver Creek Special Service Area #3 has conducted multiple surveys regarding a connector route. Staff will review the options previously presented to the Summit County Council and public. Staff would like to receive any new public comments regarding connector route options. Staff will provide a recommendation and ask the Council for direction on a preferred alternative.
