Required Inspections: Please initial to verify commitment

- _____ * Staking - prior to building permit issuance
- _____ * Rough Grade - prior to footings inspection
- _____ * Pre-Surface - prior to hard surface of driveway
- _____ * Final - required for certificate of occupancy

Flood Zone:

A Floodplain Development Permit Required & Elevation Certificate Required Shaded X Elevation Certificate Required X

By applying for this permit I acknowledge that I have confirmed that I will be complying with all federal, state and local laws concerning this property and that any permit issued pursuant to my application does not grant to me the right to develop my property under any existing land use and zoning laws, nor does it supersede any federal, state or local law which prevent the grading activity for which I am applying, in the event a permit is issued erroneously. This permit is not a grant of easement or other similar interest. Applicant shall acquire easements from affected fee owners as required.

Bonds are calculated using the following information:

Area of disturbance:

L.O.D. (Total Disturbed Area) _____ sq. ft. (1 acre = 43,560 sq. ft.)
Disturbed area \$.10 / sq. ft. x _____ area = \$ _____
Silt fence \$1.50 x _____ / ft. = \$ _____

SWP3 & ECP bond (120% of estimated cost) \$ _____

Encroachment bond

- * \$250 per encroachment - lots having slopes less than 10%
- * \$500 per encroachment - lots having slopes between 10-15%
- * \$2000 per encroachment - lots having slopes over 15%

Staking Inspection: Required to verify, driveway side yard setback, alignment, offset from intersections (if applicable) and drainage requirements. Front Property Corners must be in place. Place 4 stakes, 2 on each side of the driveway at the street and 2 on each side of the driveway at the front property line. Inspection is required prior to applicant receiving a Building Permit.

Rough Grade Inspection: Required to verify that the driveway roughly conforms to approved plans (side yard setback, alignment, offset from intersections, and grade). All Erosion Control Measures shown on the Plans must also be in place. Inspection is required prior to applicant receiving a Footing Inspection from the Building Department.

Pre-Surfacing Inspection: Required to verify that the driveway conforms to approved plans (side yard setback, alignment, offset from intersections, and grade). Driveway must be fully graded and formed (if applying a concrete surface). Inspection is required prior to applicant placing the hard surface (Concrete, asphalt pavement, etc.). All Erosion Control Measures shown on the Plans must also be in place.

Final Inspection: Required to verify that the driveway conforms to approved plans (side yard setback, alignment, offset from intersections, and grade). Inspection is required prior to applicant receiving a Certificate of Occupancy from the Building Department and a release of their Encroachment Bond. All Erosion Control Measures shown on the Plans must also be in place.

ECP Bond Release Inspection: Required to verify that the site has been fully stabilized (re-vegetated). Inspection is required prior to applicant receiving a release of their Erosion Control Bond.
