

STAFF REPORT

To: Snyderville Basin Planning Commission
From: Ray Milliner, County Planner
Date of Meeting: July 10, 2018
Type of Item: Code Amendment – Public Hearing
Process: Legislative

RECOMMENDATION: Staff recommends that the Planning Commission review the proposed language to regulate Mobile Food Trucks and Mobile Food Courts in the Snyderville Basin and forward a positive recommendation to the County Council per the findings of fact and conclusions of law written in this staff report.

Proposal

The purpose of the amendments is to create regulations to allow for the operation of Mobile Food Trucks and Mobile Food Courts in certain areas of the Snyderville Basin.

Background

On November 14, 2017 and March 13, 2018 the Planning Commission reviewed draft amendments to the Code to allow Mobile Food Businesses and Mobile Food Courts in commercial zones. At that meeting, the Commission provided direction for amendments to the draft language and requested that staff return for further review.

There are two components proposed:

1. **Mobile Food Business.** This language is designed to regulate individual trucks.
2. **Mobile Food Court.** This language is designed to regulate a gathering of 2 or more food trucks in the same location.

Analysis

Section 10-7-3 of the Snyderville Basin Development Code states that whenever there is initiated an amendment to the Code, it must be reviewed by the Planning Commission who will deliver a recommendation to the County Council. The County Council, after holding a public

hearing, shall approve, approve with modifications or deny the amendment according to the following criteria.

Criteria 1: The amendment shall be consistent with the goals, objectives, and policies of the general plan. **COMPLIES**

Analysis: Chapter 1 of the Snyderville Basin General Plan States:

“The Basin’s changing demographics have created an economy no longer solely dependent on seasonal mountain resort business. Social and economic diversity and its associated demands are encouraged for the long term health of the Basin. Accordingly, this Plan and Code form a foundation for the complex, long range use of land through managed growth--balanced between competing demands of residential and commercial interests and preservation of ample and continuous natural areas and open spaces.”

The proposed amendments to the Snyderville Basin Development Code will allow a new use in the Basin. Qualifying provisions and criteria included in the proposed language are designed to ensure that the food trucks are compatible with surrounding uses, and are respectful to the natural and built environment.

Individuals have reported that mobile food businesses are important contributors to a community’s social scene, as they become impromptu gathering spaces. Food is generally cooked to order, so it takes a few minutes for the food to come out. This encourages people to interact socially. Currently there are very few community gathering areas in the Basin.

Criteria 2: The amendment shall not permit the use of land that is not consistent with the uses of properties nearby. **COMPLIES**

Analysis: Criteria and qualifying provisions will mitigate negative impacts of mobile food businesses and mobile food courts on surrounding land uses. As with all other uses in the Development Code, in cases where a mobile food business violates the proposed Code provisions, County Code Enforcement (or possibly the County Health Department) will address the problem through the normal process.

Criteria 3: The amendment will not permit suitability of the properties affected by the proposed amendment for the uses to which they have been restricted. **COMPLIES**

Analysis: The amendment will not permit suitability of the properties affected by the proposed amendment to the uses to which they have been restricted.

Criteria 4: The amendment will not permit the removal of the then existing restrictions which will unduly affect nearby property. **COMPLIES**

Analysis: The proposed Code language does not remove any existing restrictions that would unduly affect nearby property owners. Although mobile food business and mobile food courts are new uses in the Development Code, provisions have been inserted into the language designed to prevent undue harm on other properties (qualifying provisions, mobile food court is a CUP etc.).

Criteria 5: The amendment will not grant special favors or circumstances solely for one property owner or developer. **COMPLIES**

Analysis: Staff finds no evidence that these regulations would constitute a special favor or create a favorable circumstance for a single property owner.

Criteria 6: The amendment will promote the public health, safety and welfare better than the existing regulations for which the amendment is intended to change. **COMPLIES**

Analysis: Food trucks are small business and are generally local. Small business has proven to be an important component in Summit County's local economy. Staff discussions with owners of retail stores in other jurisdictions indicates that it is a benefit when food trucks park near them, because the patrons that the trucks attract also shop in their stores. Additionally, staff has found that food trucks have often partnered with local business including bars and coffee shops to attract business. Therefore, staff finds that mobile food business and mobile food courts will be an economic benefit to Summit County.

Recommendation

Staff recommends that the Planning Commission review the proposed language to regulate Mobile Food Trucks and Mobile Food Courts in the Snyderville Basin and forward a positive recommendation to the County Council per the findings of fact and conclusions of law written in this staff report.

Findings of Fact

1. Chapter 1 of the Snyderville Basin General Plan notes that social and economic diversity and its associated demands are encouraged for the long term health of the Basin.
2. In furtherance of this goal, §10-1-1(D) of the Summit County Code ("Code") provides that within the Snyderville Basin Planning Area tightly knit, neighbor friendly, town, village and resort centers shall be permitted in designated locations. These centers shall be designed to maintain and renew a sense of place and foster a feeling of belonging.

3. Individuals have reported that mobile food businesses are important contributors to a community's social scene, as they become impromptu gathering spaces.
4. Qualifying provisions and criteria included in the proposed language are designed to ensure that the food trucks are compatible with surrounding uses, and are respectful to the natural and built environment.
5. The proposed Code language does not remove any existing restrictions that would unduly affect nearby property owners.
6. Food trucks are small business and are generally local.
7. Small business has proven to be an important component in Summit County's local economy.
8. As currently drafted, the Summit County Code does not set forth specific criteria or a process for the regulation of Mobile Food Businesses or Mobile Food Courts.

Conclusions of Law:

1. The amendment is consistent with the goals, objectives, and policies of the General Plan.
2. The amendment will not permit the use of land that is not consistent with the uses of properties nearby.
3. The amendment will not permit suitability of the properties affected by the proposed amendment for the uses to which they have been restricted.
4. The amendment will not permit the removal of the then existing restrictions which will unduly affect nearby property.
5. The amendment will not grant special favors or circumstances solely for one property owner or developer.
6. The amendment will promote the public health, safety and welfare better than the existing regulations for which the amendment is intended to change.
